

Blessing Home

Newsletter - March 2025

We are truly thankful for your unwavering support and generosity, which enable us to transform the lives of many underprivileged children.

Bangalore, a busy metro city in India, is often seen as a hub of progress and opportunity. However, beneath this image lies a harsh reality. There are countless slums where thousands of people live in poverty, struggling with poor health, and limited access to education. Life in these areas is difficult, especially for girl children, who face the constant danger of physical abuse by their own family members. Many of them are from single-parent families, while some are complete orphans, left to wander the streets without food, care, or safety.

Blessing Home is dedicated to rescuing children from the difficult circumstances of slum life, giving them a safe, loving environment

to heal and grow. Our social workers identify the needy children and bring them to our home, where we give hope, safety and an opportunity for a brighter future.

At Blessing Home, we care for 22 children, giving them a place to stay and grow. Along with a safe environment, we ensure they get quality education in English-medium schools, learn important life skills, and spiritual care. Our goal is to empower them to compete with their peers and achieve success. We support them until they finish their degrees and step into a dignified future.

Besides this Home, our "Family Support" program in Bangalore and KGF helps many poor families with monthly provisions and pays school fees for more children. This program helps children attend school, while families get enough for their daily needs. As a result, these children are excelling in their

studies, and their families are experiencing hope and stability. Each of our students graduates with distinction and secures a promising future.

Niranjan Babu faced significant challenges in his education and daily life due to an eye problem. However, with the compassionate care and support of Blessing Home, he received the necessary medical treatment to restore his vision. With his eyesight regained, Niranjan was able to concentrate on his studies and take full advantage of new opportunities.

His life is one among many remarkable transformations made possible by Blessing Home. We deeply thank all our donors for their invaluable support. The transformation in the lives of these children wouldn't be possible without you. Please continue to pray for them as they move forward in their life journey.

From Shadows to Spotlight

The Inspiring Journeys of our students

Aruna

Aruna faced many challenges after losing her father at a young age. Her mother worked as a cook and did her best to support the family but struggled to meet even their basic needs. Despite these hardships, Aruna dreamed of a better future and had a strong desire to study. Blessing Home provided her the opportunity to study in good schools, and follow her dreams. Through hard work and determination, she completed her B.Ed. degree, securing the first rank in her college. And now she teaches at one of the top schools in Indonesia.

Shyla

Shyla's mother was a hardworking laborer at a construction site. As a single mother, she struggled to provide enough food for her children each day. Even at a young age, Shyla worked alongside her mother at the construction site to help meet their needs. One day, a kind-hearted man noticed their struggles and brought Shyla to Blessing Home. Life changed for Shyla as she received love, care, good food, and an education at Blessing Home. With the support of Blessing Home, she studied diligently, passed her B.Com. with distinction, and secured a job with an American company. Today, she is pursuing higher studies in Financial Management in the United Kingdom.

Diana

Diana came to Blessing Home when she was five, an orphan battling a mysterious heart condition that caused her heartbeat to fluctuate without reason. Even doctors were unable to identify the cause of her illness. Despite these challenges, Blessing Home provided her with medical care, education, and a loving family. Through the prayers and support of donors, Diana's life has been transformed. Today, she lives as a beacon of hope, inspiring others with her resilience and faith. Her smile reflects the power of love and the impact of your generosity.

THE CHALLENGE

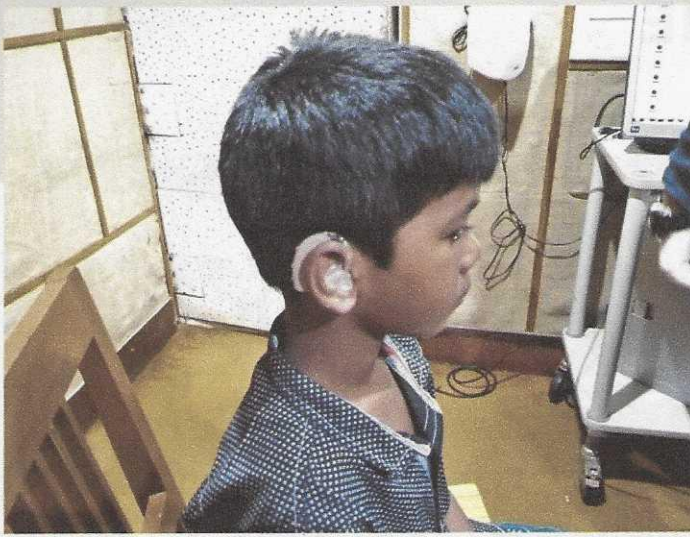

These are just a few examples of many. Each of our students graduates with distinction and secures a bright future. We are committed to giving them with quality education so they can become self-sufficient. However, paying fees at the start of each academic year is challenging, as the school raises fees annually. We rely entirely on God and the generosity of people like you to help these needy children experience God's goodness in their lives.

Many of these children have never had the experiences their friends enjoy, such as family trips or birthday celebrations. To provide them with such opportunities, we took them to Coonoor for a three-day camp, giving them a chance to enjoy a stay-out experience in a beautiful setting. We also celebrate their birthdays, ensuring they don't feel forgotten or alone. These moments are meant to show them that they are loved and valued, helping them feel a sense of belonging.

MAKING MEMORIES

Hearing - Dream Unfold

Akash, a 9-year-old boy faced challenges with speech and hearing from an early age. Despite his difficulties, Akash demonstrated incredible talent and a keen interest in electronics. Amazingly, he taught himself by watching YouTube and even created several electronic projects. Recognizing his potential, Blessing Home stepped in to provide the support he needed. He was taken to a hospital, where he received a hearing aid, and was later enrolled in a special school offering quality education alongside speech and hearing therapy. Today, Akash is thriving, and the radiant smile on his face reflects the transformation in his life.

Lifting Lives

Blessing Home is extending support to a blind man, Muthu and his elderly mother in KGF, who have no income and struggle to have a single meal each day. Understanding their dire situation, Blessing Home is providing a monthly provision to help meet their basic needs. This help is providing much-needed relief to the poor family by ensuring they have enough food each day to survive.

Changing Lives

We support 46 underprivileged children in KGF and Bangalore by paying their school fees. During our visit to KGF last August, we gave them books, notebooks, school bags, stationery, and water bottles. Even though we receive little support, our hearts go out to those in need, and we do our best to assist these children, so they can study well without any hindrance.

Create Opportunities

Prabhakar, a diabetic patient from KGF with severe eye problems, faced difficulty in finding work, which left his family struggling to meet basic needs and pay for their children's education. We gave him two goats to generate income, offered monthly provisions, and covered the costs for his eye surgery, which restored his sight. We also gave scholarships for his children, ensuring they could continue their education. This support has brought new hope and stability to their family, helping them see a brighter future and feel God's care in their struggles. Now, Prabhakar's daughter is able to continue her degree, and the family is living with more dignity and hope.

Caring Hands

Even though we have no funds, we still provide all these helps to those in need because we have a heart of compassion. We trust God and seek support from like-minded people, using what we receive to assist those who need it most.

HELP US BUILD A HOME

for the Orphaned Children

Setting the Groundwork for the Home

With a heavy heart and unwavering faith, we reach out to you about a pressing situation that directly impacts the lives of the precious children under the care of Blessing Home. For the past 23 years, we have been living in rented houses, moving from one place to another whenever the house owners needed their property back. Even now, our present house owner has informed us that they will need their property back by the end of 2025, leaving us with the urgent task of finding a new shelter for these 22 children.

As you may already know, finding a house to rent for Homes has become increasingly challenging in India today. Strict government regulations, coupled with the burden of heavy taxes and other legal requirements, have made property owners hesitant to lease their buildings for such purposes. This harsh reality has made us realize the pressing need for a permanent building of our own - a place where these 22 orphaned and abandoned children can feel secure, nurtured, and loved without the constant fear of being uprooted again.

By God's grace and with the support of several kind friends over time, we have taken a significant step forward - we have purchased a piece of land and begun the foundation work for a home where 25 orphaned and abandoned children can live safely and experience love and care. However, we now face a challenge. We do not have the necessary funds to take this project to the next level. Without further support, the dream of providing these children with a secure and loving home remains incomplete.

We humbly ask you to prayerfully consider contributing to this noble cause. The estimated cost to build the home is ₹1.5 Crore. Your generous donation will provide a safe home for these children and a strong foundation for their future.

Raising Strong Pillars

Time is short, but we believe in God's perfect plan and provision through His people. As we join hands, we can overcome this challenge and ensure that no child feels neglected or abandoned.

Will you help us build a lasting legacy of love and hope for these children? Your support will not only transform their present but will shape their future. Every contribution, no matter the size, will make a profound difference in their lives.

If you have any inquiries or would like to know more about the project, please do not hesitate to reach out to us. Your prayers and support mean the world to us and the children we serve.
